DAILY TRIBUNE.

CHICAGO, WEDNESDAY APRIL 6, 1853.

[illegible] Single Copies of the Morning Edition can be obtained at the desk. Price...2 cents. Done up in wrappers ready for mailing and postage prepaid... Single Copies of the Evening Edition... Single Copies of the Weekly... Done up in wrappers ready for mailing and postage prepaid... [illegible]

Advertisers and others who wish notices to appear in the Morning Paper, will please hand them in before five o'clock of the previous evening.

Neither the Publication Office, Editorial Rooms, or Printing Establishment of the Tribune are open on Sunday.

For Notices of Insurance Companies and Banks, see the first and second Columns on the fourth page.

Mr. L. Lamphere is the Agent for the Tribune along the line of the Chicago and Rock Island Railroad.

Post the Books.

Our worthy rival, St. Louis, has a powerful advocate in the person of its Col. Benton. She has done much for the Colonel, and he never forgets his friends. With an indomitable energy, an unflinching boldness, unfailing assurance, boundless stores of knowledge, (either of fact or fancy)—in a word all that go to make up what is called *grit*, he works for St. Louis and Missouri with a zeal that borders on desperation, and a success that encourages to an unequalled persistence.

There is another city in the West called Chicago. It, too, has an advocate at the seat of government, (or is supposed to have) in the person of Judge Douglas. She has done as much for the Judge as St. Louis has for the Colonel.—She has made him rich by her advance in real estate. She has made him renowned by the puffs of her newspapers. She has put him on the Bench by the influence of her leading citizens. She has sent him to the House of Representatives by her votes. She has made him Senator by her influence at Springfield. And more than all, she tried her best to make him President of these United States, and failed from no lack of spirit and ability on her part.

So the account stands. Benton and St. Louis are square on the books. St. Louis sends Benton to Congress, and Benton works for her railroad to the Pacific. How is it with Chicago's man? Is the account square between her and him? Chicago too, wants a railroad to the Pacific. Nay, more; she thinks, and says she can prove, that her private route is the route for the country, the route for New York and Boston, and Philadelphia and Baltimore, the route for Asia and Oregon and San Francisco, the route for the world. She wants this route presented and advocated and defended before the world. She has a man that can do it. Does he do it?—She has given this man everything he ever asked in the way of honor, emolument, position and wealth. What does he do in return? Are the accounts square? Isn't it time the books were posted? Benton writes a letter to the people of Missouri about a central St. Louis route to the Pacific, which is copied and abstracted and lauded in every paper in the Union. Where is Douglas's letter to the people of Illinois, about a Northern, Chicago route to the Pacific? Where is our Little Giant?

Yes, where is he? Why, we find him contending about some old disputed claims for little States down in Central America. On a former occasion he handsomely retired from 34 deg. 40 sec. to 49 deg. North latitude. He seems to have made a further withdrawal to the States of Nicaragua and Costa Rica. We find him seeking to undermine the noble Statesmanship of Everett, telling the accomplished Clayton that he does not know the meaning of his own words, flinging slang at England, cherishing old prejudices, casting blocks before the wheels of compromise, and stirring up ill blood. And all this time, the vital interests of the great West are sacrificed. The claims of Chicago go by default. The real substance is lost, and the shadow only sown.

Sign Orthography.

We have often been amused, sometimes vexed, and occasionally shocked even, at the barbarous manner, in which the President's English is treated, on some of the signs which meet the eye in passing through our city streets.

We feel ready to excuse an "I" in "Counselor at Law," till the question is decided whether a lexicographer can force upon the public his own notion of what orthography is, in opposition to the usage of the best writers; but what shall we say of such as these,—*Grocerie, Whisky, Cristel Fountain, Furnising Goods, Millinary, Tobaco Factory, Shoeshoing, Bording House, Beef Steaak, Fresh Arival of Goods, Cassimers, Handkerchiefs, and Furying* done here. Verily, "signs and wonders."

There is one in particular, on the West side, which has always been a puzzle to us. It is *Farmer's Market, ec.* Now this *ec.* we have always been accustomed to translate "Errors Excepted," and if it conveys to the readers of the Tribune any idea of the goods sold at the place, or the way they are sold, the proprietor is welcome to this advertisement.

Punctuation, too, seems to be looked upon as a pleasing embellishment in some cases, and a useless waste of paint in others, and there was something in the remark of the young lawyer, who requested the painter to pay particular attention to punctuating the sign for his office, for if he did'nt, there would'nt be any *stop* there.

The subjects, too, embraced on one sign, are distractingly numerous sometimes, though we have never seen in Chicago quite so miscellaneous an assortment as the following, which we once saw in an Eastern City: *Washing, Ironing, Bell Ringing for lost children, and Going out to do Day's Work done here.*

We forbear to say anything about the multiform shape of letters, the t's with their crooks the wrong side, the e's facing the wrong way, the s's with their middle far above any supporting line, the names beginning with ambitious capitals, and ending in diminutive italics, and various other fanciful deviations, almost rivalling sometimes the chirography of our distinguished men.

Phonography may be good in its way, but when English is used give us the pure article, for, as Charles Lamb said of brandy and water, a mixture spoils two good things.

A GAZETTEER OF THE U. S. OF AMERICA, comprising a General View of the United States, and particular descriptions of the several States, Territories, Counties, Districts, Cities, Towns, Villages, their Mountains, Valleys, Islands, Capes, Bays, Harbors, Lakes, Rivers, Canals, Railroads, &c., [illegible] Waterfalls, Caves, Beaches, and other Fashionable Resorts,—to which are added valuable Statistical Tables, and a Map of the United States by John Hayward.

This is a large work of some 850 pages, and the table of contents shows that it ought to be very valuable, and such we deem it to be. Mr Hayward, the author, has been long known in New England as a historical and statistical writer, and considered peculiarly fitted for the labor, industry and care needed in the execution of such works. Besides bringing to his work a large measure of experience and knowledge, the author has availed himself of able assistance in some of the most difficult departments. The manner in which he has reduced everything to classes and tabular views, is a peculiar excellence, and will give it great additional value with the public. The work is very highly spoken of by the first editorial critics at the East. It is published by Case, Tiffany & Co., Hartford, Conn., and is sold by subscription. The Agent is now in our city, and will present the work to our citizens.

Shakleas Bank Note Detector, and Commercial Reporter for April 4th—85 Clark street Chicago. Of the market it says:

Our money market is very quiet. But little doing financially. Our Banks have been strengthening themselves for the last two months preparatory to a large Spring business; and after the 4th of this month we prophecy money [illegible] and a brisk business will ensue through all the departments of trade in our city.

The State Bank of Wisconsin will go into operation at Milwaukee about the 1st of May. Capital, $150,000; circulation, $100,000. Elephalet Cramer, Esq., President; M. S. Scott, (formerly cashier of the Saratoga County Bank, Waterford, N. Y.) Cashier. The Directors comprise some of the best business men in Milwaukee.

Detroit.

Saturday we returned from a hasty visit to Detroit. That city seems to be slowly yet steadily improving. She is pleasantly situated, and must always be the commercial emporium of the State of Michigan. She is to that State what Chicago is to the entire Northwest. Detroit can only control the trade of Michigan, while Chicago standing at the head of navigation of the great lakes, opens her gates to receive the commerce and the treasures of the Garden of the Union. But we wish not to fan the flame of jealousy. Our sister of the peninsula is a great and growing State. We admire her for her beautiful lakes, her majestic forests, and for the enterprise of her citizens. Like the rest of her sister States, she is fast clothing herself in the habiliments of greatness. The farmers appear to be in a prosperous condition, and around many of their homes begin to appear evidences of cultivation and of taste. Considering the winter, her wheat crop looks exceedingly well. The towns along the line of her railroads are in general in a flourishing condition. The dust that followed in the train of the iron horse being exceedingly oppressive, we stopped for a few hours at Ann Arbor. This I believe, is one of the oldest towns in the State. Its situation is healthful, and the scenery around it delightful. Many of its residences and its pleasure grounds have an air of taste and refinement seldom found amid the business and the bustle of the great West. Here is located the great University of Michigan.

This Institution is munificently endowed, its location is admirable, and its condition prosperous. We are glad to know that Universities and Colleges are keeping pace with the growth and the prosperity of our country, for in this we see a pledge of social order, and of the stability of our institutions. Jackson, Kalamazoo and Niles are all pleasant and flourishing towns.

While passing through a forest, in the Western part of the State, we noticed a singular phenomenon. The timber was heavy and the trees very tall, but every one of them was dead.—They stood like an army of skeletons, lifting their naked trunks and bare arms to the sky, proudly bearing up against the universal destroyer, decay. As I thought of the fierce fury of the devouring element that in a moment robbed these warriors of the forest of life, a freezing horror crept over my soul that caused me to feel the power and the grandeur of the elements of nature. A little spark no larger than the flame of a match, became a devouring tempest of fire that with a single breath, blasted the mighty giants of the forest.

Lake Shore Rail Road.

The *Sentinel* says, under the head of "Good News," "We are happy to learn that arrangements have been completed with Messrs. Bishop & Co., of Bridgeport, Connecticut, well known and responsible contractors, for the *immediate* prosecution of the Lake Shore Railroad. The design is to push it ahead with all speed, and to complete it from Milwaukee to the Illinois State Line, *within the current year*. The Chicago company have already announced their purpose and made their preparations, to build their half of the road within the same period. We may therefore indulge the reasonable expectation that next winter will find Milwaukee, Racine and Kenosha in direct Railroad communication with Chicago, Buffalo, New York and 'the rest of mankind.' Speed the good work."

United States Court Fee Bill.—Among the acts of the last Congress, is one regulating the fees of Attorneys, Marshal and Commissioners in the Courts of the United States. This act increases in many cases the fees to be taxed in cases in those Courts. It allows docket *fees* to Attorneys on a pretty liberal scale. They are allowed to tax as follows:

After judgment on trial	$20.00
On judgment without jury	10.00
On discontinuances	5.00
For each disposition read	2.50

The operation of this act must be to induce lawyers to bring their suits in the United States Courts where they have concurrent jurisdiction with the State Courts.

Church for Deaf and Dumb.—A circular has been issued by Bishop Wainwright, and others, in New York, inviting donations to the amount of $20,000 for the erection of a church in that city for the deaf and dumb. About 100 such persons now reside in that city, a part of whom have been gathered into a congregation by Rev. Thomas Gallaudet, who for five months past has preached to them on the Sabbath, in the chapel of the University. A few of them have been organized into a church, under the sanction of the Provisional Bishop.

We attended their service last Autumn, and were much impressed with the beauty and solemnity of their silent worship. We do not know of a more impressive service than the offering of the Lord's Prayer in the eloquent sign language. Rev. Mr. Gallaudet is the son of the well known, highly honored head of the Hartford Deaf and Dumb Asylum, and one of the most efficient pioneers in behalf of this unfortunate class. The son has for several years been a prominent Professor in the New York State Asylum.

Schools for Colored Children in Ohio.—The Legislature of Ohio, at its last session, so amended the school bill, as to allow for the education of the colored children of that State. It establishes schools for them in every township where fifteen children live who can attend; and if any less than that number present themselves, it is the duty of the Board of Education to suspend the school or schools for six months, and the Directors shall appropriate the money raised for their education, for the instruction of as many as it will pay for in a private school.

Switzerland.—By the Niagara we learn that the old Switzer spirit seems aroused against Austria. From Berne it is reported that Austria without *occupying* Ticino, will maintain the blockade indefinitely, but no answer has yet been given to the note of the Federal Council.—Private accounts tell sad stories of the sufferings of the banished Ticinese, women and children perishing by the way.

Galena and Southern Wisconsin R. R.—A meeting was held at Galena on the 14th inst. in favor of this road, it was

Resolved, That it is the opinion of this meeting, that a connection with the Southern Wisconsin Railroad Co. is deemed of great importance to this City and County, and that our contract with said Company should be fully carried out in all its provisions, when said Company are prepared to comply with the same.

The *Galena Advertiser* says of the road, "It is the next great enterprise, which will affect materially the great interests of the city, which should be provided for. Other railroads may bring more *men here*—*it will bring business*. It will open to us all Middle and Eastern Wisconsin, and in a few years, the Lake Superior country may be reached by direct line of railroad, as well as the city of Mobile."

Ohio and Mississippi R. R.—Dispatches have been received in this city from New York, which state that contracts have been made in that city for ten thousand tons of railroad iron, to be used in the construction of the Ohio and Mississippi railroad. It is to be delivered in May and June next. This will complete one hundred miles of the road. Forty miles are to be completed on the eastern end of the line, from Vincennes, and sixty miles from Illinoistown, in an eastern direction.—*St. Louis Rep.*

Pittsburgh and Springfield Railroad.—We call the attention of our readers to the notice which we publish to-day, of the opening of the books for subscription to the capital stock of this road. We understand that a meeting of the commissioners for the organization of the Board was held at Petersburg on the 17th inst., and that John Bennett, of Petersburg, was elected President of the board.

This road starting from Springfield, runs as nearly an air line to Petersburg, thence to Havana, Lewistown, Cuba, Ellisville, St. Augustine, Berwick, Monmouth and to Keithsburg, or New Boston on the Mississippi river, intersecting the Military Tract Railroad and the Peoria and Oquawka railroad, and by the road from Monmouth to Rock Island, connecting the Upper Mississippi, and forming the great connection of Iowa and Western Illinois with St. Louis. The region through which this road passes is not excelled in wealth, fertility, population and resources, by any in the State.—*Springfield State Register.*

Table Moving.

The editors of the *Detroit Free Press* and *Buffalo Republic*, each bear witness to the fact of the far-famed table walkings and gyrations.—They state that the tables not only moved, but moved rapidly, and were under the control of the will of those whose hands were upon them. They moved and stopped, and took various directions according to the will, not the faith, of the operators. The editors were themselves participants in the operation, and simply state facts without attempting an explanation. The *Republic* calls it the effect of animal magnetism, but regards the phenomena simply indicative of the existence of natural agents and principles, not heretofore known. The *Free Press* applies the word electricity to the agent. Of the phenomena there seems to be no reasonable doubt, and all experiments will impart more light and do no harm, if the foolish idea of spiritual agencies and communications is not entertained. To connect spirits, either good or evil, with the phenomena, is as wise as to believe that an eclipse of the sun or moon is an evil spirit swallowing it up. It would be well, as Punch says, to have the conceit taken out of us, at least enough to lead us to arrive to the modest conclusion that there are some things even in the natural world that we do not thoroughly understand.

We will add a part of the statement made by the *Free Press*:

"Four persons sat around a small table, one at each side, and placed the palms of their hands thereon, all the hands being joined together, so as to form a continuous circle around the table. After the lapse of about ten minutes, the table began to show signs of liveliness; moving at first slowly, but afterwards increasing its speed. It moved in all directions, but principally in a circle. Upon taking the hands off, the motion would immediately cease. The placing of a child upon it seemed to have no effect in stopping the movement, which was so rapid, at some times, as to make it necessary for those holding their hands upon it, to walk quite briskly in order to keep up with it. Upon some of the legs of the table catching in the carpet, it would rear up on the legs so caught, and remain in that position for a considerable length of time. It is a most singular experiment."

The New Steamboat Law opposed.—On the Western Rivers, this statute finds much opposition among Pilots and Boatmen.

Some of the steamboat men in Cincinnati held a meeting on Monday night at the Burnet House, in reference to the steamboat law, and unanimously adopted the following resolutions:

Resolved, That we regard the late act of Congress as impolitic, ridiculous, and unnecessary.

Resolved, That this meeting recommend to all Pilots on the Ohio and Mississippi river to consider the law unjust and uncalled for, and beyond their power of complying with the same.

Resolved, That the law imposes on us responsibilities which we are unable to discharge and unwilling to meet.

Resolved, That the incumbrance now attached to steamboats, in the shape of *life preservers, life boats* and *inspectors*, are incompatible with our skill as Pilots and Engineers, and at war with our own ideas of humanity and common sense.

On motion, the meeting adjourned to meet at the Monongahela House, in Pittsburg, on April 1st, 1853.

Milwaukee and Mississippi R. R.—It is now a fixed *fact*, that this road is to reach Madison immediately. We stated last week, that the contracts had been let, providing for its completion by the first of January next, and the character both of the company and the contractors leaves no doubt but it will be completed according to contract. We understand that the whole of the Iron necessary for this purpose is now in Milwaukee, thus securing the road from any delay on account of the scarcity or advanced price of this article. This is now the only road which has accomplished anything really tangible and practicable within the State. It has already over *seventy miles* completed and in successful operation, and this year, will add about thirty more. The business which it has already done, and is now doing, is paying a good profit on the investment and it will grow better and better as the road is extended, and new sections of the country opened to its benefits. Whatever may have been said or thought in regard to this road it now has the entire confidence of our citizens, and is the road to which we must look for immediate benefits. May it be attended with the utmost success.—*Madison Democrat.*

Liberia.—The following letter, addressed to the Williamsburg *Times*, is written by an intelligent colored man who emigrated from Williamsburg to Liberia a few months ago. It will be seen that he is delighted with the change in his condition and prospects:

Monrovia, Jan. 23, 1853.

I promised to let you hear from me when in Liberia, Africa, but although I have been here two months, I cannot at this time give you much account of the place. This little Republic is so far ahead of what I expected to find it, that your good people of the States would scarcely think I were narrating truth were I to describe all that I have seen. Liberia is a fine fertile country. Things of every kind grow here. The people are more comfortable in every respect, and enjoy themselves much better than I have ever known them to do elsewhere. The houses are very large, and are built mostly of brick and stone; they are two stories and two stories and a half high, from 30 to 50 feet front, and from 25 to 40 feet deep. The steps to these houses are composed of iron ore—a substance on which the city is built. Iron ore is as plentiful in Monrovia as common stone is in Williamsburg.

Most of those who farm are located on the banks of the St. Paul river, about five miles from the city, and some are doing well. Allen Hooper, of New York, has been here a little over two years. He had but small means to commence with, but now has one of the best coffee plantations on the river. He has seven thousand trees growing—two thousand of which are loaded with coffee—and he is of opinion that next year all will bear. Next I will mention A. Blacklege, who is making about twelve thousand pounds of sugar a year, and some hundreds of gallons of molasses and syrup—all of which will favorably compare with the best imported articles of the kind.

Sweet potatoes, Lima beans, Indian corn, cassada, plantains, and other table vegetables, are raised up this river, which is 25 or 30 miles long. A fine town is situated at the source of this stream; it is called Millsburg, and contains a population of 800 or 1,000 persons—the most of whom employ themselves in making brick, and in hewing timber of all kinds for market.

I have not ability to describe the advantages to be reaped in this country, nor have I the time. My business is so much better than it ever was before, that I am constantly occupied in attending to it.

One word as to the fever. My children have all had it; so have all the emigrants who came out with us, except my wife, myself and two others. None of them kept their beds for more than two or three days. The fever is not as bad as it is generally represented to be, I have seen persons who have lived here for from two to twenty years, and who never had it at all.

This is a great country for men and women who love liberty and who love themselves, for money can be made here.

Please to give my thanks to the gentlemen in your city whose philanthropy was the cause of my success. I trust you will publish this letter, for the information of those who may wish to know something of this country. My next letter shall be longer, and will contain much more information respecting this colony of Liberia—a day star of hope for the colored race.

JOHN D. JOHNSON.

Death of Mrs. Fillmore.

The intelligence of the death of Mrs Fillmore, received yesterday afternoon, produced a deep and general feeling sorrow throughout the city. The lamented deceased had been a resident here for many years, and her many social and domestic virtues had endeared her to a large circle of acquaintances and friends. She was blessed with an amiable and most excellent temper, benevolent disposition, and intellectual qualities fitted to adorn any station in life. As a wife and mother her conduct was exemplary in the highest degree. Mrs Fillmore has been in feeble health for some time past, but her disease did not take a serious aspect until within the last few weeks. The sympathy of the nation will be deeply excited in behalf of the ex-President, in this hour of bereavement. The blow that has fallen upon him will be the more severely felt at the moment when, laying aside the cares and excitements incidental to his late position, his heart was yearning for the enjoyment of the privacy of domestic life.

Death of Mrs. Cass.

Mrs. Cass, wife of Gen. Cass, died in this city last evening, at 11 o'clock. When we stated, a few days since, that hopes were entertained of her restoration to comparative health, we did not think we should so soon be required to announce this painful termination of their hopes, and of the life of so noble-hearted and true woman at the same time. But such is the end of all *earthly* hopes. The death of this lady will be universally lamented, and, perhaps, more sincerely by the poor and humble than by any other class, for she was eminently the friend of such. By them, her name will ever be held in affectionate remembrance, for her heart and her purse were alike open to their appeals for sympathy and for aid. She was, emphatically, a good woman, and she has gone where she will receive the full reward of her pure life and her good acts. The death of such a woman as Mrs. Cass is a loss to society as well as to her family and friends.—*Detroit Tribune.*

Literary Intelligence.

Mr. Henry C. Carey is about to publish a work entitled *The Slave Trade, Domestic and Foreign*, reviewing the subject in all its ramifications and in all countries.

Mr. C. L. Brace has in press here and in London, under the title of *Home Life in Germany*, a description of that country as it appears in doors to the stranger, and of its fashions, habits, furniture, mode of dress, &c., with conversations and views of German society.

Edmond Flagg, Esq., late U. S. Consul at Venice, has in press in this City a historical work, to be entitled, *Venice in 1849*. It will comprise an account of the Italian Revolution, of whose tragic closing scenes Mr. Flagg was an eye witness.

Mr. H. Meyer is about to commence the issue, in parts, of *The United States Illustrated*, in two volumes, one of Eastern subjects, and one giving views on the Mississippi River from its source to New Orleans. The illustrations will be engraved on steel, with descriptive articles by some of the best writers in the country.

Mr. G. P. Putnam, who is now in Washington on business, has addressed a communication to the National *Intelligencer*, in favor of an international copy-right law. He states in the course of it, that nineteen out of every twenty of the publishers in the United States are in favor of it, including all the leading publishers of New York.

Fletcher Webster is occupied with "Recollections of the Private Life and Conversations" of his illustrious father. The task of editing the "Memoirs and Correspondence of Mr. Webster," is for the most part confined to Mr. George Ticknor.

Mr. Bancroft is printing the concluding volume of his "History of the Revolution." It is Mr. B's intention, on completing his History of Revolution, to proceed with the "Administrations of Washington, Jefferson and Madison"—down, indeed, to the close of the second war with England.

Liabilities of the English Railway Companies.

Many decisions of the English Courts show the accountability to which the English Courts hold the Railway and Transportation Companies. The following is a case in point. An action brought by a passenger against a Railway Company to recover damages for injuries sustained in getting out of the cars at an inconvenient and dangerous place. The train in which the plaintiff was, at the time of the accident, arrived at the station where he was to stop, about eight o'clock in the evening. The train was a very long one, and extended below the platform, and the plaintiff, being in the last carriage but one, had to get down upon the ground. It was quite dark, and the plaintiff in stepping from the board beside the carriage to the ground, which was twenty-one inches below it, put his foot upon the rail of a shunting or intersecting line, and descending upon it with the whole force of his body, his foot slipped, and thereby ruptured the ligament of his ankle. The result was, that he was confined for a considerable period, and is still obliged to walk with crutches, and, in the opinion of medical men, will be obliged to do so for another year. The Court held that the neglect of the Company to carry the passenger to a safe and proper landing rendered them liable for the injury. The jury gave him a verdict of $5000.

Dr. Phebe M. Way.—Says the Baltimore *Sun*: "Some time ago, we introduced to our readers Dr. Phebe Way, a graduate of the Female Medical College of Pennsylvania, who at that time was about to commence the practice of medicine in this city. Of course the lady has had to encounter the general prejudices of society, and the force of popular habits: but we learn with considerable success and with a fair prospect of finally surmounting them all, and establishing herself usefully in her profession.

Notwithstanding Neal Dow was turned out last year in the election for Mayor of Portland, and a gentleman elected (Judge Parris,) not so radical in his Temperance views, we observe that the salutary and purifying influence of the Maine Law, has been in no wise arrested by the change. The law continues to do its work. According to *The Eastern Argus*, the commitments to the watch-house for drunkenness during the year ending March 1853, was 278, while the number committed the previous year, was 325; the latter being a vast reduction from the annual number committed before the passage of the law.

Game Law in Illinois.—At the last session of the Legislature of this State, a law was passed prohibiting the killing of certain wild game in the counties of Lake, McHenry, Boone, Winnebago, Ogle, De Kalb, Kane, Du Page, Cook, Will, Kendall, La Salle, Grundy, Stephenson and Sangamon, between the first day of January and the twentieth day of July of each year. The provisions of the law apply to deer, fawn, prairie chicken, quail, and woodcock. The fine for killing deer and fawn is fifteen dollars, and for killing the other enumerated kind of wild game, five dollars; to be recovered before any Court having competent jurisdiction, one half to go to the informer, and the other to the county treasury of the proper county.—*Alton Tel.*

State of Italy.—A correspondent of *The Boston Traveler* writing from Florence, says:

"Italy is troubled to her heart's core. In Florence, we cannot, of course, learn the true extent of the late revolution movements at Milan, Rimini, Mantua, and elsewhere, We only know that blood has been shed on both sides, and the scaffolds are again erected. On the part of the Italians, the movement was premature, but at present all Italy is one volcano, slumbering, it is true, but acquiring strength for an eruption that will eventually force foreign despotism and civil papacy from its soil. The deep, *silent* hatred borne to the Priests and Austrians is frightful. It pervades the very atmosphere, and is drawn in at every breath by all classes, but the few sold to their interest or circumstances. Disguise it as we may, there is a general uneasiness in Europe. Monarchs and governments distrust each other; the people distrust both; peace is maintained by bayonets, and not as Mr. Cobden would have us believe, by good motives.

The Nova Scotian Legislature.—The Halifax Sun divides the House of Assembly into three parties, Railway Men, Obstructives and Anti-Railway Men. The former number 25 and 24 respectively. The Anti-Railway Men number 4. It will thus appear that before a plan for constructing their railway can be secured, the House must be dissolved.

The N. Y. Crystal Palace.—Col. Hughes, of Maryland, the representative of the American Association for the management of the Crystal Palace, at New York, who is now in London, has had a long interview with Prince Albert, who, in conjunction with her majesty the Queen, it is said, takes great interest in the American World's Fair. Her Majesty and Prince Albert will send over a variety of choice and valuable articles, including a bust of the Queen, to be exhibited. The Emperor of France, the Pope, and the Sultan are among the contributors.—England sends 542 objects, France 326, the Zollverein 500, Holland 142, and Italy 100 statues. Col. Hughes will shortly leave London and Paris, and proceed to the several European courts upon his important mission.

Trees of Oregon.—In the March number of the *Horticulturist*, is a communication from N. Coe, of Portland, Oregon, furnishing accounts of the dimensions of several trees of remarkable size, which he measured in that Territory.—One of these trees, near Astoria, being 10 feet in diameter, five feet above the ground, 112 feet to the first limb, and its total height 242 feet.—Another one, in a forest of spruce, cedar, and fir, of about the same size, measured 39 feet in circumference. Mr. Coe says: "Gen. John Adair, of Astoria, informs me that about three years ago he bought a hundred thousand shingles, all made from one cedar tree, for which he gave fifteen hundred dollars in gold." The tremendous size of timber in Oregon appears to be well attested.

The present Liquor Law of Indiana provides that it shall not be sold as a beverage by less measures than one gallon, without the consent of the people at the April election, and then by any persons who will give four freehold sureties in the sum of $500 to $2000 to keep orderly houses and pay all fines or damages incurred under this act. A vote in favor of license shall have effect one year, and not authorize its sale on Sunday. The penalty for the illegal sale is a fine not exceeding $200. The retailer who shall "cause the intoxication of any person, shall board, keep and take care of such person until he shall be able, without assistance, safely to return to his home, and on failure to do so, it shall be lawful for any other person to do so, or to cause the same to be done, which person shall have an action against such retailer, for reasonable compensation for such service, and fifty per cent. damages thereon." If a retailer keeps a disorderly house, he shall pay $25 and not more than $100. "Any wife, child, parent, guardian, employer or other person, who shall be injured in person or property, or means of support, by and intoxicated person, or in consequence of the intoxication, habitual or otherwise, of any person, shall have right of action in his or her own name against any person, and his sureties on the bond aforesaid, who shall, by retailing spirituous liquor, have caused the intoxication of such person, for all damages sustained, and for exemplary damages." Under this section a married woman may sue as single. A recovery against a retailer shall be conclusive evidence against his sureties in an action upon the bond, both as to the right of action and the amount of damages.—*Pittsburg Despatch.*

The sufferers by famine at Madeira were grateful for the provisions sent from Boston by the bark Nautilus. It was the first succor that arrived, and they return their acknowledgments through the United States consul.

Lake Superior Copper Mines.

From various sources we gather the following statements respecting the copper mines:

The North American Mine.—A letter to the Pontiac Gazette from Lake Superior, dated Feb. 2, states that "the North American works are going ahead with great activity, and with nearly as much copper now in sight in the mine, as we have shipped from the commencement of the works. One mass in sight, along the side of which we have driven between thirty and forty feet, and do not as yet find the *end, bottom* or *top of it*. This will probably be one of the greatest masses ever found in any of the mines here. Other mines are looking nearly as well. We have now four steam engines used in propelling our mining machinery. We feel at times, as though all other places of business are mere satellites to those of our own."

The Forest Mine.—Under date of Feb. 2, the superintendent writes that "the mine is looking well in every sense of the word; that out of eleven points worked, not one is barren. The two deepest points, the main shaft and west winze No. 3, are full of copper." Feb. 24, Mr. A. Coburn writes that in the middle shaft, "a fine mass is visible, and that the vein is so bound by pieces of copper, that the miners are compelled to work down and open the ground at the side before they can get on. The west shafts show a remarkably regular and rich vein."—Mr. Livingston says "the stamp mill will turn out ten tons of copper per month."

The Winthrop Mine.—The "Winthrop" is reported to have the great "Hill Vein" of the Copper Falls Company. This vein has been traced across the greenstone bluff into the amygdaloid on each side.

The Dana Mine.—The "Dana" has improved greatly of late. The vein in the 20 fathom level is 20 inches wide well filled and regular.

The Farm Mine.—At the bottom of shaft No. 1, they have commenced the 20 fathom level, driving to connect with shaft No. 2. This level shows the vein two and a half feet in width, well filled with native copper. Several small masses have been taken to the surface of 1800 lbs. weight. In driving west from No. 2 shaft, the vein is full two feet in width, thoroughly filled with metallic copper.

National Mine.—This has produced about 12 tons pure copper, and masses are seen in all the levels and shafts, in sufficient quantities to justify the statement that they will be able to ship some 40 tons during the season.

Toltec Mine.—This still promises a rich harvest to the stockholders as soon as it is opened. The vein will average 2 1-2 feet in width, well defined by good smooth walls, and thoroughly charged with bbl. and stamp copper all though the mine, and masses of 1000 lbs. are not unfrequent.

North Western Mine.—This continues to improve; the vein is about 2 1-2 feet in width, produces masses of copper from 12,000 lb. downward, with rich bbl. and stamp copper. The 20 fathom level shows a decided improvement.

Copper Falls Mine.—These continue to show mass copper as the ground is opened. Several masses are met with in different parts of the mine; the largest is about 42 feet in length, but as yet we know nothing of its extent. J. Hill vein will average about 3 1-2 feet in width for some 1200 feet in length, and is well filled with mass bbl. and stamp copper. The Copper Falls vein will average about 20 inches. The largest mass of copper exposed in this vein is about 12 tons; many small masses are met with, and the entire vein is well filled with bbl. and stamp work.

The Portage Mine.—The Portage Mine is looking very finely. In digging out some accident pits on this location, they took a great many stone hammers and pieces of copper, all battered up and in one a mass of about 400 pounds.

The Isle Royal Mine.—The Company commenced work on the 18th of August, and raised since that time over twenty-five tons of pure copper, mostly in barrel work, and some in gold sized masses. It is said to be the best thing over opened, for the amount of work, in this country.

New York and Michigan Mine.—This is a new mine opened on almost the extreme end of point Keweenaw, and for the amount of work done, it looks spendidly, and bids fair to rate in a short time with those of older standing.

The Cliff Mine.—The Cliff, as usual, is the father of all copperdom. It has increased in width and richness from the surface to the depth of 580 feet. There is more mass copper at the bottom than has been found at any point above.

The Minnesota Mine.—The progress of the Minnesota is even more astonishing than that of the Cliff.

The total outlay by the original stockholders has been $22 per share, or $66,000 for the whole Mine. About five years since the stock was offered to the miners at $3 per share, and refused by them. The Company was in debt, and the stockholders were unable or unwilling to pay further assessments. As time rolled on, however, the Mine began to improve, and the debts and current expenditures were paid in the product of Copper. The company, at the close of last season's navigation, had 450 tons ready for shipment. It has since been obtaining from 52 to 57 tons per month. By next Autumn it will have shipped more than 1,000 tons of Copper, worth fully $500,000. Allowing 50 per cent. for expenses of all sorts, it can pay a dividend in Jan., 1854, of *fifty dollars* per share, and have a cash reserve of $100,000. The stock is chiefly held in New York at 200 per share.

The English Language is not confined to a small portion of the Globe, nor spoken by an obscure people. It is the language spoken by a moral and religious people, on the richest portion of earth. At this present time it is spoken in the Island of Great Britain, a large part of Ireland, and the Islands between France and Britain, called Guernsey and Jersey. The English language is also at Gibraltar, down in the colony of Liberia, in Africa, in Hindostan by sixteen millions of people, in the richest Island in the world Australia. It spoken over the greater part of America, in one or two of the West India Islands, in British Guiana. These appear to be the territorial boundaries of the English language, and they are keys of the world. It is proper to mention, the English language was confined for centuries to the Island of Great Britain. It was introduced there in 450, A. D., by two rude tribes from the north of Germany, and confined in that narrow home for a thousand years. But remember, all great things are a long time in coming to maturity. In 1606 it took a sudden migration, and landed in New England and Virginia; fifteen years after that in the Island of Jamaica. In 1750, it reached Hindostan, and it has grown with the growth of British power. The English language is a composite language, derived from the Celtic, Gothic, French, Latin, and Greek. Some 1400 years ago our language was different from now; it had but a very limited vocabulary—now it has some 80,000 words. The language was increased by affixes and prefixes, as from godly came godliness, &c. Ours translation of the English Bible and the Pilgrim's Progress have the principal words which form the basis of our language. Daniel Webster was master of the Anglo Saxon language. In 787 the Gothic language began to be Anglo Saxonized.

William the Conqueror deposed this Saxon language. In 1327, by an act of parliament, a law was passed that all should speak the mother tongue, which has swollowed all the others up. All the time the people spoke the Anglo Saxon and Gothic, the nobility, gentry, and lawyers, the French, the churchmen and priest, spoke Latin. Each of the elements of the English language are valuable. Each has its practical value, and each has its appropriate province of thought. If we knew the power of the roots of our language, we could do wonders. The Anglo Saxon is of the most practical value.—There is great economy in using it, because the people understand it. By using the Saxon language it saves the people much thought in trying to understand the speaker.

Resistance to Ridicule.—Learn from the earliest days to insure your principles against the peril of ridicule; you can no more exercise your reason if you live in the constant dread of laughter, that you can enjoy your life if you are in the constant terror of death. If you think it right to differ from the times, and to make a point of morals, do it, however rustic, however antiquated, however pedantic it may appear; do it not for insolence, but seriously, and grandly—as a man who wore a soul of his own in his bosom, and did not wait till it was breathed into him by the breath of fashion.—[Sidney Smith.

A Persian merchant complaining heavily of some unjust sentence of the lower court, was told by the judge to go to the cadi.

"But the cadi is your uncle," urged the plaintiff.

"Then you can go to the grand vizier."

"But his secretary is your cousin."

"Then you may go to the sultan."

"But his favorite sultana is your niece."

"Well, then go to the devil."

"Ah, that is a still closer family connection." said the merchant, as he left the court in despair.

GREAT CURE FOR DYSPEPSIA! [illegible] PEPSIN [illegible]

DAILY TRIBUNE.

CHICAGO, WEDNESDAY, APRIL 6, 1853.

JOB PRINTING. We would remind our friends, and the public, that we are ready to do all kinds of JOB PRINTING at a short notice. [illegible]

The Tribune will regularly publish all Common Council Proceedings, as prepared by the City Clerk, together with such abstracts of the City Advertisements and all Official Notices as shall render it equally satisfactory to the Public with the Official Paper, as respects all the Ordinances, Notices, Decrees, and Doings of the City Government.

For Corporation Notices see eighth column, third page.

The People's Bank.—The Journal of Saturday was in error in stating that the Metropolitan Bank was ready to take stock to the amount of $100,000 in the "People's Bank," the movement for the establishment of which, in this city has been noticed in the Tribune. The statement lacked the editorial element of plausibility, as it would be rather odd for one Bank to take stock in another.

P. S.—Since writing the above we see that the Journal has made the correction, and adds: We have been shown a letter from one of our prominent merchants now in New York, (from which we presume the report arose, which led us into the error above alluded to,) stating that if the citizens of this city take hold of the matter energetically at home, there will be no difficulty in obtaining subscriptions to the amount of a half million in New York.

Board of Trade.—The Board of Trade at its annual meeting last evening, made choice of the following officers:

President—Thomas Hale.
Vice President—Chas. H. Walker.
Secretary—I. P. Hilliard.

The young man, whom we noticed as having been bitten by a rabid dog, on Sunday evening, had the wounded flesh cut out on Monday evening, by Drs. Boone and Bloodgood.

More Mad Dogs.—A young man was bitten by a rabid dog, on Monday evening, at the corner of Clark and Adams streets.

Two of these persons bitten have already placed themselves in the hands of surgeons, and a portion of the flesh around the bite, removed and cauterized.

Fire.—The fire yesterday afternoon, was at the Michigan Central Railroad Depot. Two small wood-houses were consumed. With such a furious wind, the day was a fearful one for a fire.

Well Done.—We notice that the schooner G. R. Roberts is afloat, and again safe in port, after wintering on the beach at Muskegon. For this her owners are indebted to the indomitable perseverance and masterly skill of Capt. Holland. It is but a week or ten days since Capt. H. went over to her, and this he has done on a shore almost barren of any help or materials for such a work. He deserves much credit, and those who have seen him in times of difficulty and danger, will witness that this is not the first time he has shown himself to be a practical and energetic seaman. We are told that several parties attempted last fall to get up the George R. Roberts, but failed.

Blown Down.—The end of the new Store House on the North side, just above Clark St., belonging to Thomas Hale, Esq., was blown down yesterday. The wind for most of the day was evidently intent on doing something besides raising a dust.

After the fire yesterday a boy was run over by a rider on horseback, and injured.

A fleet of about thirty vessels left yesterday morning for the lumber region.

For Buffalo.—Propeller Granite State, with cargo of provisions.

Brig C. B. Blair, with cargo of provisions.
Brig Abiah, with cargo of oats.
Schooner Denmark, with cargo of corn.
" Leland, with cargo of corn.
" Pilgrim, with cargo of corn.
" Defiance, with cargo of corn, for Oswego.

Firemen's Thanks.—Engine Company No. 7, after returning from the fire at the Central R. R. Depot, yesterday, voted their thanks to Geo. Hammond, the Agent of the Road, for a donation of $15, which he made to No. 7, for exertions made by it to reach the fire.

Lecture.—The fourth lecture of Warren Chase Esq., on Human Development will be delivered this (Wednesday) evening, at the City Saloon Hall, corner of Lake and Clark Streets.

Admission 10 cts.—ladies free.

The New Bible House.—The new building for the use of the American Bible Society, New York, is nearly completed. Its area is about three-fourths of an acre, comprising between ten and twelve city lots. The shape is a triangle of unequal sides. It has a front of about 700 feet in all, is 70 feet high, divided into four stories, is built of brick, with brown stone trimmings, and when completed will have cost from $250,000 to 300,000 dollars. The total number of persons that will find employment in the edifice when the society shall be fully in operation will be 580.

Wisconsin State Loan.—In our columns this morning will be found a notice from Gov. Farwell, inviting proposals for the State Loan of $50,000. The bonds have five years to run, are to be $1,000 each, and bear interest at the rate of 7 per cent per annum payable annually in advance in the city of New York. As Wisconsin has but $50,000 of State Debt, and is restricted by the Constitution to $100,000, these bonds will doubtless be eagerly sought for by Capitalists—The bids are to be sent to the Governor at Madison on or before the 15th instant.—*Milwaukee Sentinel.*

The Brazilian Slave Trade.—According to an official report of the Brazilian Government, it appears that the number of Africans imported in 1848, amounted to sixty thousand, and in 1849 to fifty-four thousand. In the year 1851 the number was reduced to three thousand two hundred and eighty-seven, of which one thousand and six were captured by Brazilian cruisers and declared free. During the past year, one vessel, and one only, it is said, is known to have landed a cargo of slaves on the coast of Brazil; and this occurred last June. The Brazilian Government deals very summarily with the slave traders. Any person found concerned in the traffic, no matter what his rank or condition may be, is imprisoned or banished without ceremony.

A Rebuke.—A worthy man, recently visited a "medium" to witness the wonders of spiritual rappings. He had lived ten years with a notorious shrew, who at last died, soon after which he married a young woman of comely person and pleasant disposition. On inquiring if any spirits were present, he was answered by raps in the affirmative. "Who?" The spirit of Malinda, your deceased wife.—"Ah!" exclaimed he with a gesture of alarm; but recovering himself, he kindly enquired, "are you satisfied with your condition? Are you happy?" "Perfectly so," replied the spirit—"Then I am!" gruffly exclaimed the ungallant enquirer, as he turned on his heel and walked off.

Quinces Love Salt.—The quince tree seems to have a constitutional fondness for salt. We have never seen, says the Horticulturist, such superb specimens of this fruit, and such a general luxuriance of the trees, as at Newport, R. I., on the sea coast. A gentleman who noticed this fact several years ago, told me, lately, that he had profited by the hint, in giving to each of his trees a top dressing of two quarts of coarse salt every spring. By scattering the salt over the surface, it dissolves slowly, and does no harm whatever to the roots, but makes both foliage and fruit much more healthy.

A little out of town, last night, the following question was proposed for discussion by a Literary Society: Which is the most enviable—Imagination, or Knowledge of [illegible]

DAILY TRIBUNE.

CHICAGO, WEDNESDAY, APRIL 6, 1853.

JOB PRINTING.

We would remind our friends, and the public, that we are ready to do all kinds of JOB PRINTING at a short notice. Our material is entirely new, and embraces the latest styles of type. Orders left at the Counting Room, on the ground floor, next door to the Post Office, will be promptly attended to.

The Tribune will regularly publish all Common Council Proceedings, as prepared by the City Clerk, together with such abstracts of the City Advertisements and all Official Notices as shall render it equally satisfactory to the Public with the Official Paper, as respects all the Ordinances, Notices, Decrees, and Doings of the City Government.

For Corporation Notices see eighth column, third page.

THE PEOPLE'S BANK.—The Journal of Saturday was in error in stating that the Metropolitan Bank was ready to take stock to the amount of $300,000 in the "People's Bank," the movement for the establishment of which, in this city has been noticed in the Tribune. The statement lacked the editorial element of plausibility, as it would be rather odd for one Bank to take stock in another.

P. S.—Since writing the above we see that the Journal has made the correction, and adds:

We have been shown a letter from one of our prominent merchants now in New York, (from which we presume the report arose, which led us into the error above alluded to,) stating that if the citizens of this city take hold of the matter energetically at home, there will be no difficulty in obtaining subscriptions to the amount of a half million in New York.

BOARD OF TRADE.—The Board of Trade at its annual meeting last evening, made choice of the following officers:

President—THOMAS HALE.

Vice President—CHAS. H. WALKER.

Secretary—I. P. HILLIARD.

☞ The young man, whom we noticed as having been bitten by a rabid dog, on Sunday evening, had the wounded flesh cut out on Monday evening, by Drs. Boone and Bloodgood.

MORE MAD DOGS.—A young man was bitten by a rabid dog, on Monday evening, at the corner of Clark and Adams streets.

Two of these persons bitten have already placed themselves in the hands of surgeons, and a portion of the flesh around the bite, removed and cauterized.

FIRE.—The fire yesterday afternoon, was at the Michigan Central Railroad Depot. Two small wood houses were consumed. With such a furious wind, the day was a fearful one for a fire.

WELL DONE.—We notice that the schooner G. R. Roberts is afloat, and again safe in port, after wintering on the beach at Muskegon. For this her owners are indebted to the indomitable perseverance and masterly skill of Capt. Holland. It is but a week or ten days since Capt. Hand Book of Universal Geography; being a Gazetteer of the World. Edited by T. C. Calloni, A. M. Published in Putnam's Series of Home Cyclopedias. For sale at the LITERARY EMPORIUM, 111 Lake st.

A NATIONAL WORK.

THE WORKS OF JOHN C. CALHOUN, to be handsomely printed in Octavo Volumes. The following will be the order of publication:

1. On the Constitution and Government of the United States. (Now ready.)
2. Speeches in Congress.
3. Diplomatic papers and Correspondence.
4. His Life.

CALHOUN, CLAY, and WEBSTER are three names which will long be venerated by American citizens. Of the three, Calhoun, during the early part of his life, was perhaps the greatest favorite with the people. His highly cultivated mind, profound views of government, and his pure character, gave great weight and importance to his opinions with all parties. Of the writings and speeches of American statesmen, there are scarcely any who bear so directly upon the great measures adopted by our Government, during the last forty years, as those of the lamented Calhoun. The War, the Revenue System, the Currency, and States Rights, were subjects upon which he took a leading position, and greatly aided the decisions which were made on them. With those who took an interest in our national history, the value of the writings of our public men cannot be too highly estimated.

The works of Calhoun will follow each other rapidly from the press. All who are desirous of procuring them are invited to call at 111 Lake street, and subscribe without delay. Terms—$2.00 per volume. Volume 1st, just received by S. C. GRIGGS & CO.

PUTNAM'S MONTHLY—SUBSCRIBE NOW!

COMMENCE with the first number. This new and original Magazine deserves the attention of all literary men. It contains a great deal of sound reading from the pens of the most popular American Authors, and is the pioneer in this department of Monthly Literature.

"An elevated National Tone and Spirit, American and Independent, yet discriminating and just both to the Literature, and to the Social condition and prospects of both Hemispheres, will be cultivated as a leading principle of the work." A new supply just received by S. C. GRIGGS & CO. 111 Lake st.

JUDGE OF CIRCUIT COURT.

BUCKNER S. MORRIS announces himself as a candidate at the election to be held on the 25d April, for Judge of the Circuit Court for the Seventh Judicial Circuit, to fill the vacancy occasioned by the resignation of the Hon. H. T. Dickey.

CHICAGO, ST. CHARLES AND MISSISSIPPI AIR LINE RAILROAD.

A CORPS OF ENGINEERS, under the direction of Geo. W. Waite, Esq. Chief Engineer, will commence operations on this road next week. The Capital stock to be subscribed is $1,250,000, of which $600,000 is already taken by Eastern capitalists; leaving $650,000 to be subscribed at Chicago and on the line west. Measures are taken to push this rail road to completion. Stock subscriptions are now in circulation in all the counties on the line west of Cook. Persons wishing stock in this road, are requested to call at the office of the subscriber, (No. 12 Wells sts) where they will be furnished with every information.

Election for Directors will take place on the 14th of March, and subscriptions will be closed on the 15th of next month. G. S. HUBBARD, Agent.

Chicago, St. Charles and Mississippi Railroad.

LOCK HOSPITAL.

No. 150 Washington Street.

THE ONLY CERTAIN REMEDY FOR THE CURE OF Secret Diseases at 150 Washington street. By the strict system established at the Lock Hospital, 150 Washington st., all patients are secure of absolute privacy. The advantages of this system are too well known to need any comment. All who have any need of advice or attention from Dr. D., may confide in him with a full assurance of secrecy and certain hope of recovery. Some of the most learned and famous men in the country have been under his charge—men of genius, intellect and power—and in no instance has the strictness of privacy been violated.

Invalids must be cautioned against the illiterate and unlearned in science, who do so much injury by quackery and imposition. The Vegetable Medicines of Dr. D. are now sufficiently established, as the only certain remedy for Venerial complaints, and those who are afflicted with such complaints are seriously warned not to tamper with them, by trusting those who practise the abuse of mercury or balsam.

Dr. D. freely invites all troubled with disorders to call upon him. His charges are regulated by the circumstance of the case. No charge will be made where a cure is not effected. Dr. D. is a regular physician, having devoted many years to the exclusive study of these diseases, comprising, in their various shades, Gonorrhea, Syphilis, Impotency, Strictures, Gleet, Scrofula, diseases of the bones, &c. Nothing is needed but to call upon him, to make everything satisfactory in a moment. Such is the absolute efficacy of the method of his cure, that no question can possibly exist about it, when once an individual becomes acquainted with the wholesome and certain process. It is but for a man to say he is afflicted, and see himself cured.

The greatest point for the consideration of everybody is, to avoid all communication with persons unqualified to give them relief. Serious and dangerous consequences ensue more than the world is aware of, from the treatment of quacks and impostors.

The only certain way is to visit the Lock Hospital, or Dr. D's office, at No. 150 Washington street, and at once place yourself under his care.

☞ Office will be kept open from 9 A. M. until 10 P. M.

☞ All letters (post-paid) will receive prompt attention. Any person wishing a private room, on ill cured, can have it by applying to Dr. D.

DR. ATKINSON,

Confidential Physician, 267 Randolph street, corner of Franklin, continues to cure all cases of disease of a Confidential nature, with secrecy and dispatch. His charges are moderate, success certain, and conduct honorable. Private Rooms, and entrance on Franklin street. Worst cases solicited. Letters from city or country, addressed to Dr. A., box 566, P. O., will meet due attention, and medicine can be sent secure to any part.

DAGUERREOTYPING.

THAYER BROS. Artists, from New York. GALLERY, No. 75 Lake st. Gate Geo. P. Hansen's.) Likenesses taken without regard to weather, in the most approved style of the art, of all sizes, from the largest cabinet Portraits, to Miniatures for Lockets and Rings.

[CERTIFICATES.]

CHICAGO, Jan. 1853.

MR. SOLOMONS: Sir—I think it no more than an act of justice to you as well as to the American community to state the spectacles I bought of you suit me well. I find my sight much improved. I can see small print with them for any length of time without fatigue to my eyes. Should my sight continue to improve by the use of them, I have no doubt but I shall be able to read without them in a short time. Yours truly, HENRY MORE, Jackson st.

CHICAGO, Jan. 15, 1853.

MR. SOLOMONS: Sir—The benefit I have derived from the Spectacles obtained from you, induces me to express the pleasure I have received from them. They suit my sight to admiration, by candle light as well as day; I read with the same ease as when a boy; which I could not do with any other glasses I have used. It affords me the greatest pleasure to avail myself of this medium of testifying how satisfactory has been my own experience of your skill as an optician. Yours truly, A. CARTER, Monroe st.

WANTS.

WANTED IMMEDIATELY.

TWO OR THREE business men, to travel in a lucrative business, that will pay from $3 to $5 per day. Those wishing to travel will find great inducements. Apply at No. 45 Clark street, 2d floor, front office, opposite the "Bank of America."

167 HHDS. N. O. SUGAR—Fair to Prime, uninjured for sale by J. H. DUNHAM & CO., 92 and 94 Water st.

BY TELEGRAPH.

REPORTED EXCLUSIVELY FOR THE

CHICAGO DAILY TRIBUNE.

By Speed's Line.

A SWIMMING OF THE HEAD, like every other disordered motion of the blood, is owing to corrupt and stagnant humors which, when floating in the general mass of the circulation, are the cause of headache, giddiness, palpitation of the heart, and many other unpleasant symptoms, and when thrown upon the various parts of the body, are the cause of every malady incident to man. Wright's Indian Vegetable Pills are always certain to remove headache, giddiness, and every complaint, because they completely rid the body of all morbid humors, and every thing that is opposed to health.

Wright's Indian Vegetable Pills also aid and improve digestion, and therefore give health and vigor to the whole frame, as well as drive disease of every kind from the body.

Beware of Counterfeits.

CHICAGO, Jan. 15, 1853.

MR. SOLOMONS:—From infancy I have been afflicted with weak eyes and short sightedness, and in all my travels I have never been able to get a pair of glasses that would suit me. I have had several pairs that would enable me to see more distinctly, but could never keep them on more than one half hour, from the fact that they caused such great pain.

I happened to see your advertisement, by which I saw you had just imported some, and it has been my constant aim to get a pair that would benefit me, thought I would try yours.

You must not think me flattering when I say they more than answer my expectations. I have not been able to read by candle light for more than half an hour at any time before I got these glasses. Since I got these I read one Sunday all day, and until ten o'clock, without experience of the least pain, which is a thing I have not done before for years.

I say this much, as I think it deserving your enterprise, and hoping others may be benefited by it.

You are at liberty to make use of my name at any time you may see fit. I am, sir, yours truly, J. S. PARSONS.

P. S. I forgot to mention that my wife is greatly benefited by the pair she got, and equally pleased. PARSONS.

CHICAGO, Jan. 14, 1853.

MR. SOLOMONS: Dear Sir—I am happy to express to you my thanks and acknowledgments for the benefit I have derived from the Spectacles which I obtained from you. They suit me perfectly in every respect and though as strong as prudence would allow me to select, they have never caused me the least pain or strain upon the eyes, such as spectacles which I have formerly worn have done. I can now see all common distances by candle light, as well as by daylight, with the same ease as when a boy, and which I could not do with any other spectacles I have yet worn. I have now worn your glasses for three weeks, and avail myself of this opportunity to testify to you how satisfactory to me has been my experience of your skill as an optician.

Yours truly, JOHN E. McGIRR, M. D., L. L. D.

Late Professor of Physiology and Chemistry, in the University of the Lake, and now one of the Surgeons to the Illinois General Hospital of the Lake.

COOK COUNTY CIRCUIT COURT—MAY TERM, A. D. 1853.—Charles S. Sawin and Isaac H. Archer vs. Andrew Getzler.—ATTACHMENT.—Public notice is hereby given to the said Andrew Getzler that a writ of attachment issued out of the office of the Clerk of Cook county Circuit Court, dated the third day of January, A. D. 1853, at the suit of the said Charles S. Sawin and Isaac H. Archer against the estate of Andrew Getzler for the sum of one hundred and ninety eight dollars and thirty-four cents, directed to the Sheriff of Cook county, which said writ has been returned executed. Now, therefore, unless you, the said Andrew Getzler shall personally be and appear before the said Cook county Circuit Court on or before the first day of the next term thereof, to be holden at the Court House in the city of Chicago, on the first Monday of May next, give special bail, and plead to the said plaintiff's action, judgment will be entered against you, and in favor of the said Charles S. Sawin and Isaac H. Archer, and the estate so attached shall be sold to satisfy the same, with costs. LOUIS D. HOARD, Clerk.

COOK COUNTY, }

Cook County Court of Common Pleas—September Term, A. D. 1853.

Maria L. Farrell, by Samuel B. Sampson, her next friend, vs. Patrick Farrell. } BILL FOR DIVORCE.

AFFIDAVIT having been filed in the office of the Clerk of the Cook County Court of Common Pleas, within for the County of Cook and State of Illinois, that the said defendant Patrick Farrell, resides out of the State of Illinois so that process cannot be served on him. Notice is therefore hereby given to the said defendant Patrick Farrell that the said complainant Maria L. Farrell, by Samuel B. Sampson, her next friend, filed her Bill for a Divorce in said Court on the Chancery side thereof, against him the said defendant, on the sixteenth day of March, A. D. 1853, and that a summons thereupon issued out of said Court in said cause, returnable on the first day of the next Term of said Court, to be holden at the Court House in the city of Chicago in said county, on the first Monday of September next. Now unless you, the said Patrick Farrell, shall then and there appear at said Court and plead, answer or demur to said complainant's Bill of Complaint, the same and the matters and things therein contained will be taken as confessed against you, and a decree will be entered accordingly. Dated at Chicago the 16th day of March, A. D. 1853. WALTER KIMBALL, Clerk.

Jeremiah W. Duncan, Jeremiah Woolston, and Alfred D. Woolston, vs. George W. Ford. } IN ATTACH'T.

PUBLIC NOTICE is hereby given to the said George W. Ford that a writ of attachment issued out of the office of the Clerk of Cook county Circuit Court dated the 16th day of September, A. D. 1852, at the suit of the said Jeremiah W. Duncan, Jeremiah Woolston, and Alfred D. Woolston, against the estate of the said George W. Ford, for the sum of one thousand dollars, directed to the Sheriff of Cook county, which said writ has been returned executed. Now, therefore, unless you, the said George W. Ford, shall personally be and appear before the said Cook county Circuit Court on or before the first day of the next term thereof, to be holden at the Court House in the city of Chicago, on the first Monday of May next, give special bail, and plead to the said plaintiffs' action, judgment will be entered against you, and in favor of the said Jeremiah W. Duncan, Jeremiah Woolston and Alfred D. Woolston, and the estate so attached will be sold to satisfy the same, with costs. L. D. HOARD, Clerk.

CRUMBIE & JAMES, Pl'ff's Att'y.

FREEDOM FROM COUGH IN TEN MINUTES, AFTER USE, AND A POSITIVE CURE IN A FEW HOURS BY

BRYAN'S PULMONIC WAFERS.

THE most wonderful cures have been performed by this extraordinary remedy, wherever they have been introduced. A single dose is guaranteed to give immediate relief, and a positive and speedy cure is warranted in all cases of

Coughs, Colds, Influenza, Sore Throat, Wheezing, Asthma, Irritation of the Uvula and Tonsils, Bronchitis, Consumption, and all Pulmonary Diseases of the Chest and Lungs.

The medical properties are combined in an agreeable form, and

Pleasant to the Taste,

so that any child will readily take them. And the convenience of being able to carry the remedy in the pocket an agreeable and effectual remedy, which may be taken at intervals, is unquestionable, and the irritation of the Throat which produces coughing, requires something to be taken frequently. Bryan's Pulmonic Wafers are admirably adapted for the purpose, and are guaranteed in all cases to be effectual, and agreeable to the description. If not found so, according to the representation, or the money paid for them will be refunded, should relief not be obtained. They have been prepared for several years by the proprietor, and are invariable satisfactory. Many extraordinary cures of consumption and lung diseases have been performed, and the increasing demand is a convincing proof of their value.

The following certificates are from persons of undoubted respectability:

From James Berring, Esq., G. S., of the Grand Lodge of Free Masons of New York.

NEW YORK, Dec. 20, 1852.

Having used two boxes Bryan's Pulmonic Wafers for Coughs, among the children of my family, I have found them a very excellent remedy, and can recommend them accordingly.

From Dr. Jesse Gardner, of New York.

Having used Bryan's Pulmonic Wafers for coughs, &c. in my family, I find them to be a most excellent medicine for allaying coughs attendant upon colds, &c., and would cheerfully recommend them to the public as a good remedy.

ALBANY, December 1, 1852.

Sir—I have given your Pulmonic Wafers a trial, and although opposed to giving certificates for Patent Medicines, still I think your extraordinary remedy entitled to the recommendation of every medical man, and I have pleasure in giving my testimony in its favor. I find it particularly serviceable in Coughs and Asthma, and shall frequently recommend them to my patients. HENRY WHITE, M. D.

We the undersigned, citizens of Rochester, do hereby certify that we have used Bryan's Pulmonic Wafers, and can recommend them as a safe and efficacious medicine for Coughs, Colds, &c.

J. W. SABIN, M. Main st.

JOHN ROBB, Platt st.

A. B. JUDSON, North st.

and signed by two hundred others.

The following was given me by Dr. Palmer, who was twenty-five years in practice in Europe and Asia, and formerly in my employ, but now practicing as a Physician at Port Dover C. W.:

"I have no hesitation in giving my opinion in favor of Bryan's Pulmonic Wafers, in the cure of coughs and colds, [illegible] HENRY PALMER, Late Surgeon of H. M. 13th Regiment.

CAUTION.

Bryan's Pulmonic Wafers have now been in use upwards of fourteen years, ten years of which time they were prepared in England, but are now sold there under the name of Dr. Locock's Wafers, by the parties who purchased the interest of J. D. Bryan. Their great reputation, both in England and America, has induced many to counterfeit them in both countries. The public are therefore cautioned against any Pulmonic Wafers that have not the name of Bryan, and signed United States by JAMES JOHNSTON, signed E. TAYLOR on the label, (and also by E. D. Green, of Hamilton, C. W.,) and also by other parties. [illegible] HOUGHTELING [illegible]

For further particulars read my circulars, and purchase none but those having my signature on the wrapper, and on the label that is stamped with my name. J. BRYAN, Manufacturer 101 and 103 State st., Rochester, N. Y.

Any person who shall sell, barter or give away or deliver any liquors, whether ardent, vinous or fermented, in quantities less than one gallon without a license for that purpose, or who shall violate any provisions of this ordinance, shall for the first offence be subject to a penalty of twenty dollars, and for the second to a penalty of fifty dollars, and a forfeit of the license, and no license shall afterwards be granted to the person so convicted. And he may be imprisoned in the house of correction or county jail, for a period not exceeding two months, in addition to the penalty.

Any person who shall give information and prosecute any person or persons guilty of a violation of any provision of this ordinance to conviction, shall receive ten dollars out of the judgment when collected.

Any license of person who shall keep a disorderly house, or allow any gaming, shall be deprived of his license, and shall not have another.

READ FOR OURSELVES

THAT WE MAY NOT BE DISAPPOINTED.

STAY limited to Thursday, April 7th. So those ladies and gentlemen who have not been suited with Mr. Solomons' Spectacles, and favored him with letters to prolong his stay in this town, he takes this opportunity of reminding them that immediate applications is absolutely necessary, as he will not stay one day after the above date.

NEW DISCOVERY FOR THE EYES

SPECTACLES &c., ground on the exact principle of Spherical Accuracy, by G. SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No. 105 Old Bond st., London—established more than a century ago.

G. SOLOMONS, the sole inventor of the Improved Spectacles, and various improved Glasses, and is now on a short visit to this place, and may be consulted at his office, over Ward & Daggett's, 128 Lake st.

He has had the honor of attending the above named principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with the improved and only perfect [illegible] Spectacles, such is the superiority of these Glasses that persons having inflamed or weak eyes, may speedily derive the most beneficial results, from the use of them.

[illegible]

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS.

The Sound Concentrator is an extraordinary, powerful, newly invented small instrument, for the relief of extreme cases of deafness, entirely different in shape to anything ever before offered to the public. [illegible]

CHICAGO, Dec. 21, 1852.

I have examined Mr. G. Solomons' Glasses and believe them to be constructed upon correct principles, and well suited for all such as have occasion to use them.

J. McLEAN, M. D., Rush Medical College.

Professor Materia Medica, &c.

I hereby certify that I am now using a pair of Mr. Solomons' Glasses, and find them to answer a better purpose for near sightedness than any that I have ever used.

J. W. RANDOLPH, M. D., Detroit, Oct. 18, 1852.

I am fully of the opinion, from careful examination and a trial of Mr. Solomons' Glasses, that they are better calculated to accomplish the objects of the optician, than any now before the public, being shaped upon philosophical principles.

T. B. CLARKE, M. D., Cleveland, O.

It affords me pleasure to state that on the trial of several specimens of Spectacles placed in my hands by Mr. Solomons, I find superior [illegible]

J. P. KIRTLAND, M. D., Professor of Physical Diagnosis, and Theory and Practice of Medicine, Med. Dep. W. R. College.

Rochester, Jan. 15, 1853.

The best recommendation I can give the Glasses of Mr. Solomons, is that I use them myself and prefer them.

Professor of Anatomy, University of Buffalo.

New York, June 8, 1852.

Having made trial of Mr. Solomons' Improved Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any that I am acquainted with, and would recommend them confidently [illegible]

Professor of Surgery and Materia Medica, Geneva, Ind.

Philadelphia, June 4, 1852.

I cordially concur, as far as my judgment goes, in the opinion of my friend and colleague, Dr. Lee, in reference to the perfection of Mr. Solomons' concave and oval glasses, for farsightedness. The grinding appears to be good and clear, and the general workmanship superior. JAMES BRYAN, M. D., Professor of Surgery, Geneva College.

Having examined the spectacles of Mr. Solomons, I am fully convinced that they are of a superior quality. I have taken a pair for my own use, and find them unusually easy to the eye. E. L. HOWARD, Professor of Surgery, Sterling Med. College.

☞ Ladies desirous of a very profitable business, either as Dress Makers or to teach can become Masters, [illegible]

WISTAR'S

Balsam of Wild Cherry,

The Great Remedy for Consumption.

And the Best Medicine Known to Man

For Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding at the Lungs, Shortness of Breath, Pains and Weakness in the Side, Breast, &c., and all other diseases of the Pulmonary Organs.

A very important disease over which this "Balsam" exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances, when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when Mercury has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action; and in many instances effected permanent cures after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in Asthma, a complaint in which it has been very extensively used, with decided success, even in cases of years' standing.
